KEEPING IN TOUCH

For a long time you lacked some medium through which you could keep in touch with each other and with what was afoot at the School. The Andrean was created to fill this need. At that time and until his death, Tuddy was our chief source of news and during the past year we have come to realize just how valuable was his help! Many of you are sending info about yourselves or friends. This is good — but there are too few of you doing this and the news could well run dry! The School is in touch with about two thousand of you but there are more than a thousand with whom contact has been lost. It is hoped that the Andrean will help to round up the strays. We are depending on you — especially now that our Jubilee Year has arrived.

THE JUBILEE DINNER

FRIDAY, NOVEMBER 13th

KING EDWARD HOTEL, 6.00 p.m.

ROUND AND ABOUT THE SCHOOL

Another generation of Andreans is tramping down the steps to the Lower Field — hopeful, eager, and striving in the best Andrean tradition. Looking out over the Playing Field from the foot of the Chapel Steps — is a sight to recall memories alright. The sound of **Aub Holmes'** hoarse barking and the crash of armoured bodies against the blocking machine suggests that the **First Squad** is at work. The Team is shaping up well. It has won the two exhibition games played to date — with Thornhill, 20-6, and with Danforth Tech, 25-6. Come on out to the LBF games if you can — you will enjoy the football — and the get-together. **The Home game this year is with T.C.S. on October 17th — try to make it!** The **Under-Seventeen Team** under the guidance of **Hugh Warburton** and the **Under-Fifteens** coached by **Ben Whitney** promise well. All boys in the Middle and Upper School who are not playing with these teams are getting ready for the intramural league and the struggle for Clan supremacy! Messrs Del Grande, Gibb, Holden, Beaumont and Bonnyman are aiding and abetting this group. The junior boys are playing soccer. The **Cadet Corps** has emerged winner of the trophy awarded to the best Corps among the Independent Schools in M.D. 2. It has also been honoured in being asked to provide a **Guard of Honour** for the Lieutenant-Governor at the Royal Winter Fair on Nov. 19th. Boy participation in leadership has been increased this year. Six **House Captains** have been appointed for each of the three Houses. They were chosen from their respective Houses and are doing duty there. A **School Council** has been formed consisting of the Prefects, House Captains, and an elected member from each of the Forms in the School. Its function is to deliberate and act on all matters within the student sphere. The spirit of the School is good — in all departments. Academic work is well in hand — and it IS the major activity. Enrollment is better than capacity and more boys were turned away than were accepted, "Pitt" is into his fiftieth year of continuous service to St. Andrew's which is itself celebrating its **Sixtieth Jubilee** this year. Glen Needham (Maths) has left to

undertake supervisory work of Schools in the Far North. **Keith Bonnyman**, a chemical engineering graduate from U. of T. is taking his place. Otherwise, the Staff remains constant. **Hugh Warburton** has become Housemaster of Memorial House. There is an all-pervading atmosphere of pride in the School — a feeling that we are at a turning-point — that the future has never been more full of promise — that this is going to be only one of many "St. Andrew's" years. Many of you have visited the School this year since Term began. Keep coming. It is good for all concerned!
